Professionals[®]**

Invest in yourself... Become a CRSP

As a safety professional, you have many options and choices when it comes to your career path. Only you can make the choice to pursue a certification. Why not make it count?... become a Canadian Registered Safety Professional (CRSP)[®].

According to a recent *Perceived Value of Certification Survey* conducted on CRSPs, becoming a CRSP will:

- Increase your earning potential;
- Enhance your employability and mobility;
- Enhance your professional credibility.

Benefits of Certification

HIRING PREFERENCES

Becoming a CRSP will help you stand out. The value employers place on certification is reflected in the often increased salary, internal recognition or promotion that is achieved by those possessing a certification. Whether looking for an internal promotion or seeking a new opportunity, the CRSP leads to increased opportunities for employment, and recognition by employers.

PROFESSIONAL CREDIBILITY

Achieving the CRSP certification **demonstrates you have the knowledge** required for professional OHS practice, you have in-depth knowledge of health and safety principles and practices and you use this knowledge to develop systems in the workplace in order to achieve optimum control over hazards detrimental to people, equipment, material and the environment.

RETURN ON YOUR INVESTMENT

Obtaining the preeminent certification in your field leads to **increased self-esteem and personal satisfaction**. Certificants frequently report that obtaining the CRSP leads to an enhanced feeling of personal accomplishment and provides personal satisfaction.

EXPAND YOUR OPPORTUNITIES

The CRSP certification gives you a global advantage. The CRSP is the only Canadian certification recognized through Memoranda of Understanding (MOU) with the Board of Certified Safety Professionals (BCSP) in the United States and the Institution of Occupational Safety and Health (IOSH) in the United Kingdom.

Canadian Registered Safety Professional (CRSP)[®]

What is a Canadian Registered Safety Professional (CRSP)[®]?

A CRSP is an individual who has:

- Proven Expertise;
- Committed to Continual Learning;
- Complied with a Code of Conduct.

A CRSP has **in-depth knowledge of health and safety principles and practices** and uses this knowledge to develop systems in the workplace in order to achieve optimum control over hazards detrimental to people, equipment, material and the environment.

A CRSP is **committed to the principles of loss control, accident prevention and environmental protection**.

A CRSP is **committed to managing an organization's health and safety issues** and concerns according to the **Rules of Professional Conduct (Code of Ethics)**.

The **Canadian Registered Safety Professional (CRSP)[®]** is the mark of an **OHS professional** and a nationally recognized level of achievement within the OHS field.

You have what it takes to become a Canadian Registered Safety Professional (CRSP)[®]...

Find out more on eligibility and the certification process at www.bcrsp.ca.

The Board of Canadian Registered Safety Professionals (BCRSP) sets the standard for the certification of occupational health and safety professionals in Canada to create the healthiest and safest workplaces in the world. Professionalism, high standards, continuous learning, and an established Code of Ethics drive the BCRSP.

BCRSP is the only ISO 17024 accredited organization for occupational health and safety in Canada. The CRSP designation is a widely accepted form of recognition by industry and government. The BCRSP has also received the ISO 9001 certificate of registration for their Quality Management System.

A Smart Choice

"A CRSP designation is a guarantee of competence and know-how that acknowledges the person's value and promises integrity and professionalism. Satisfying the requirements to obtain and maintain CRSP certification gives companies the peace of mind that they are working with a highly qualified resource."

*Jean Bruneau, CRSP/PSAC, Directeur général,
Association paritaire pour la santé et la sécurité du travail, secteur
«Administration provinciale»*

"As a leading company in the Powerline Construction Industry we owe it to our employees, contractors and anyone working among us to be conscience of our safety responsibility. Safety requirements have become increasingly more complex and should not be taken lightly; Valard Construction LP takes this into consideration when hiring safety personnel. Having a CRSP on the executive team makes me proud of our accomplishments which include achieving OHSAS 18001 Certification and receiving the 2013 Canada's Safest Company Award which included creating and maintaining an award winning Safety Management System reflecting all applicable legislation. Having an individual with the CRSP designation as part of our team brings to the organization a higher level of education, professionalism, knowledge and leadership, and more importantly is accepted in both our clients' and our own boardrooms. I support hiring CRSPs in both managing and supervisory roles at all of our major projects at all locations in Canada."

*Victor Budzinski, CEO
Valard Construction LP*

A global leader in the certification of occupational health and safety professionals.
